**Subject:** Conversation with Mark Foley

On November 13, I spoke with Mark Foley of Service Insurance in Vernal about the reclamation surety for Justin Farley, United Stone. Mr. Foley told me Justin has done everything required of him to get a surety in place for his unpermitted mine in Uintah county, M0470079. There has been some delay with the underwriters, and Mr. Foley did not know why it was taking so long. He said he would call them and get back with me in the afternoon of the 13th or the morning of the 14th.

Penny--Could you please print this for the file? Thank you.
